

This affinity diagram groups the main ideas for my productivity app into four categories: Main Functionality, School/Productivity tools, Customization, and Support. It includes features like reminders, notifications, repeat options, task categories, and different viewing modes. School tools include an exam countdown, assignment tracker, class schedule, and study planner. Customizations cover dark/light mode, theme colors, and font size. Support features include cloud sync, offline mode, a tutorial, and an FAQ section.
